

Turnkey Breweries 100.000 500.000 hl/a

NORIT Process Technology is specialised in the realisation of turnkey breweries with capacities between 100.000 hl and 500.000 hl per annum.

These breweries are designed with the latest technical and technological innovations.

The following key items are part of the design:

- optimisation of investment costs
- reduction of operational costs
- product quality (hygienic design, in accordance to HACCP and EHEDG guidelines)
- environmental aspects (energy saving, reduction of water consumption, noise reduction etc.)
- high yield of raw materials
- low oxygen uptake
- provisions for easy extension in future
- ergonomical aspects for operators
- easy to use process automation and control system
- optimal logistics both in process and transport to and from brewery site

Designs will be executed in full 3D view for easy understanding.

NORIT takes care of all the aspects of a turnkey brewery, including

- project management
- brewhouse, beer processing area (fermentation, filtration, CIP) and filling lines
- utilities such as steamproduction, CO2 recovery, aircompressors, water treatment, waste water treatment etc.
- building
- automation and control system
- start-up and commissioning
- after sales service

Furthermore NORIT can assist in financing of the project, based on a business plan supplied by the client.
